Career Objective

Proactive Computer Science (**AI&ML**) undergraduate with strong problem-solving skills and a solid foundation in **Data Structures and Algorithms using C++**. Experienced in **front-end development** and hands-on experience in software development and **machine learning** projects. Seeking a Software Engineering / AI-ML Internship to contribute to scalable systems and intelligent applications.

Education

GMRIT Rajam *Aug 2023 – Present*
BTech in CSE(AI&ML) - [GPA: 9.1/10.0]

Sainik School Kalikiri *2014 – 2021*
Class 10th -92.4% Class 12th -95.6%

Technical Skills

Programming Languages: C++, Python, C
Competitive Programming: Data Structures, Algorithms
Data Science Libraries: Pandas, Numpy, scikitlearn, TensorFlow, Keras, SQL, Matplotlib
Machine Learning: Regression, Classification, Clustering, Time Series, Feature Engineering, Model Selection
Web Technologies: HTML5, CSS3, JAVASCRIPT
Database: SQL(Oracle)
Tools: Git, GitHub, Visual Studio Code
Coursework: Operating Systems, Computer Networks, OOPS, DBMS

Projects

Spotify Clone (Frontend)

- Designed and developed a responsive Spotify-inspired user interface focusing on layout and usability.
- Implemented 100% responsive layouts using Flexbox and CSS Grid, ensuring compatibility across various screen sizes.
- Improved styling efficiency by reducing redundant CSS by 30% through modular class design.

Simon Says Game

- Developed an interactive browser-based Simon Says game implementing 4+ difficulty levels with dynamic sequence generation.
- Provided visual feedback and level progression to enhance user engagement.
- Structured logic to handle 10+ user interactions per game session without page reloads.
- **Tech Stacks:** HTML5, CSS3, JavaScript

Academic Project

Detection of Scam Calls Using NLP — Survey Study *2025*

- Reviewed and analyzed 10+ research papers on NLP-based scam call and fraud detection techniques.
- Studied 8–10 NLP preprocessing techniques, such as tokenization, normalization, and vectorization.

Certifications

Front-End Web Development Bootcamp (L&T EduTech) *2025*

- Engaged in 60+ hours of structured, hands-on training in front-end web development.
